GitHub: https://github.com/hyep2 | Portfolio: https://hyep2.github.io/Portfolio-HWP

SKILLS

Frontend:

· HTML5, CSS, JQuery, JavaScript, Bootstrap, AJAX, SASS

Backend:

· MySQL, MongoDB, Express, ReactJS, Node, Webpack

EXPERIENCE

Associate Research Specialist, *UC Irvine Social Epidemiology Lab*

November 2021 – Present

Demonstrated strong interpersonal skills as the moderator of four focus group interviews, which served as the main qualitative data for the stomach cancer disparity project

Became proficient at using REDCap, a secure metadata-driven EDC software, which was used to develop online surveys for research participants

Performed extensive in-depth literature reviews of evidence-based scales used to develop a survey for a NIH-funded project of over 750 participants, leading to publication in the journal of Social Science & Medicine

Emergency Department Scribe, *Scribe America*

Aug 2019 – June 2021

Used THRIVE Electronic Health Records System and PACS to document patients' medical data, lab and radiology results, care plans, and diagnosis into patient charts

Commended for excellent multitasking and organizational skills, thereby decreasing patient waiting time to a minimum in a fast-paced emergency room environment

PROJECTS

Hospital Management System

https://drive.google.com/file/d/1s6wahZpO_gu7LtC2x01-y-22_9771Hvp/view | click link for walkthrough video of app

Collaborated with three other developers to build a system where admins/staffs of small clinics can easily access personal information about all employees and patients (including their appts and medical histories), and update/delete information

Tools: MySQL, Sequelize ORM, Node.js, Express.js, RESTful API, Javascript, HTML, CSS,

Amiibo Locator

https://bsandfer.github.io/amiibo-locator/

Built a front-end web application devoted to helping gamers find all information about amiibos, while listening to their favorite tracks from Animal Crossing New Horizons

Tools: 2 server-sided API databases, Javascript, Materialize, HTML, CSS, jQuery,

Weather Dashboard

https://hyep2.github.io/WeatherDashboard-HWP/

Built a front-end application that allows users to search for the weather of the city they want for the current and next five days

Tools: Moment.js, Javascript, Bootstrap, HTML, CSS, jQuery

EDUCATION

UC Irvine Full Stack Web Development Bootcamp

Feb 2022 – May 2022

12-week intensive full-time program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Firebase, Node.js, MySQL, MongoDB, Express, Handlebars.js, and ReactJS

University of California, Los Angeles, - B.S. Physiological Sciences
GPA: 3.82, cum laude

Sept 2015 – Sept 2019

Relevant Coursework: LifeScience 30A & 30B (SageMath – Python), Stats13 (RStudio), Biostatics 100A (Stata)
